Headwear styles

We group our headwear into style categories based on the construction, profile and shape of each model. This is your guide to the families in this catalogue.

5 Panel

p. 05

Flat front panel — the easiest style to embellish, ideal for printed or seamless front branding.

6 Panel

p. 22

The classic baseball cap. Available across a wide range of profiles and fits.

7 Panel

p. 49

A modern look with a large seamless front panel and curved top seam — ideal for all embellishments.

Beanies

p. 52

Knitted headwear worn as a fashion accessory. Best with clip labels or small patches.

Hats

p. 61

360° brim styles for maximum protection. Suited to appliqué or small patch branding.

Poorboy • Visor

p. 74

Flat-cap Poorboys, sun visors and multi-functional headwear that adapts to your lifestyle.

CAP PROFILES & FUNCTIONS

Every product in this catalogue is tagged with its profile and functions. Turn the page for the full guide to what each one means.

Cap profiles & functions

Two things define how a cap looks and performs: its **profile** — the construction, fit and peak shape — and its **functions**, the fabric properties that suit it to a job. Here's what every tag in this catalogue means.

PROFILES

 STRUCTURED A well-defined, rigid form held by buckram in the front panels.	 UNSTRUCTURED Lacks the rigid internal support, so the crown sits soft and low.	 FLAT PEAK A straight, flat bill crafted for chic urban appeal.	 CURVED PEAK The classic baseball look, known for its rounded bill.
 HIGH FIT A crown that sits higher on the head than lower-profile caps.	 MID FIT A balance between low-profile casual and prominent high-profile.	 HAT A versatile 360° brim for sun protection with a casual look.	 VISOR A sleek, open-top profile with a curved peak — shade and airflow.

FUNCTIONS

 FADE RESISTANT Colour-fast fabrics that hold their tone through sun and washing.	 BREATHABILITY Open weaves and mesh panels that let heat and air move freely.	 MULTI-SEASON WEAR Weights and finishes that work across the year, not just one season.
 SWEAT-WICKING FABRIC Moisture-management fabric that pulls sweat off the skin to dry faster.	 VERSATILITY / DURABILITY Hard-wearing construction built to take daily, repeated use.	 FLOATABLE / PACKABLE Lightweight builds that pack down small and shrug off the water.
 QUICK DRY Synthetic fabrics that shed moisture and dry rapidly after use.	 THERMAL REGULATION Knits and linings that hold warmth in cold conditions.	 WATER REPELLENT Treated surfaces that bead light rain and resist soaking through.
 U-FORM VISOR A pre-curved peak that shapes to frame the face out of the box.	 REFLECTIVE ELEMENTS Reflective detailing for low-light visibility and safety.	 SUN PROTECTION Tighter weaves and brims that shield the head and face from UV.

SECTION 01

5 Panel

The 5 panel is made with a flat front panel — the perfect construction for a printed or seamless front. That seamless front also makes it one of the easiest cap styles to embellish.

SECTION 07

Custom

Not a colourway off the shelf — a cap or hat built from the ground up. Your fabrication, your panels, your peak, printed top to bottom and packed your way. You bring the idea; we run it through our own factory and make it real. Nothing here is a stock product — every piece on these two pages is fully bespoke.

BUILT FROM SCRATCH
NOTHING OFF THE SHELF

PRINT

Printed top to bottom

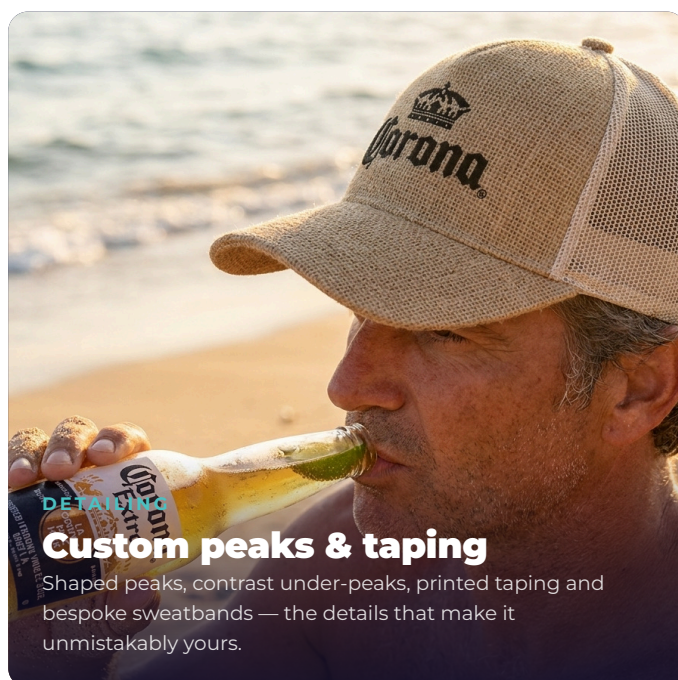

Edge-to-edge sublimation and placement print across every panel, the brim and the underbrim — no blank zones, no compromises. Photographic detail or flat brand colour, repeated seamlessly around the cap.

FABRICATION

Unique fabrication

Source the cloth to suit the brief — technical, heritage, recycled or a branded weave. If it can be cut, we can build it.

DETAILING

Custom peaks & taping

Shaped peaks, contrast under-peaks, printed taping and bespoke sweatbands — the details that make it unmistakably yours.

Custom

EVERY DETAIL, YOUR WAY
CONSTRUCTION & FINISH

CONSTRUCTION

5, 6 & 7 panel builds

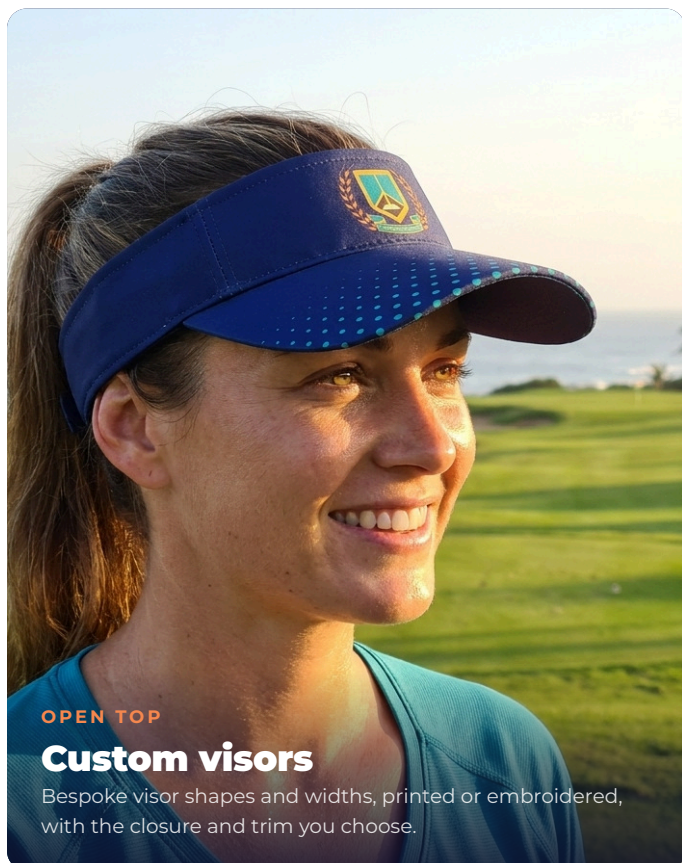

Any silhouette, fully custom — structured or unstructured, flat or pre-curved, seamless fronts included.

BUCKET

Reversible bucket hats

Two hats in one — print one face, pattern the other, finished with custom binding and eyelets.

OPEN TOP

Custom visors

Bespoke visor shapes and widths, printed or embroidered, with the closure and trim you choose.

FINISH

Custom packaging & hardware

Branded boxes, hang-tags, buckles, woven labels and badges — packed and presented as one finished product.

Custom

BRAND WORK · BUCKETS
REAL JOBS, OFF OUR FLOOR

Sublimated and reversible bucket hats we have built for brands. **Print the whole hat, edge to edge**, one face or two, on your own pattern, fabric and trims.

REVERSIBLE OR SINGLE-SIDED

Sublimated Bucket Hat

One pattern, printed edge to edge over the whole hat — all-over logos, photographic artwork or panel stripes. Run it single-sided, or reversible with a contrast print on the inside. Built on your own pattern, fabric and trims.

			
			
			
Custom Fabrics Towelling bucket with an embroidered Colonel badge.	Bespoke cut-and-sew Mixed panels and contrast trims, built to a custom pattern.	Sublimated Hat with Drawstring Woven badge with a drawcord chin strap for the front row.	Belt-and-buckle Finished with a webbing belt and buckle wrapped at the brim.
